HOW TO USE THE COUNT MAP

Use one row per 8-count. Note accents within the row: for example, "hit on 5".

Use times and exact song sections where possible. Identify any pickup or intro before count 1.

Use the continuation page again for longer routines; its count labels are editable.

Share project notes, not private student details. Nothing in this PDF is sent automatically.

This is a planning tool. Confirm event rules, music permissions and project scope separately.

INFUSE / 8-COUNT MAP

Music reference + choreography + clear edit notes. Each row represents eight beats.

Team / routine	BPM	Count 1 begins at (time)	Mix / draft version

8-count	Time / song reference	Movement / accent (specify count 1-8)	Requested edit / production note
